

BABEL CUSTOM BOOK

Here is how to get a custom Babel book.

Step 1

You decide the page quantity: 200, 400 or 600 pages.

You decide the format: paperback, A5 or novel.

(The visuals and the info table on this webpage will help you make your choice :

<https://magic.vincenthedan.com/products/babel-book-test>)

If you have a specific name for the author and/or a specific title for the book, no problem, I can use them, provided they are not real authors and titles (to avoid copyright issues).

The main text and principles from my Babel book test will remain the same.

Step 2

I will create the custom cover and send you a visual for final validation. You can suggest or request changes until we agree on the final visual.

Step 3

I will send you a PayPal payment link then I will create your order and process it as fast as possible. The book will be printed by a professional book printer and he will send it directly to you.

You will receive a link to download the pdf instructions.

(Shipping is free for all orders and all destinations.)

The final result will be unique and completely exclusive to you. I will never use your author/title/cover for anyone else but you. Of course you will be able to buy additional copies of your personal custom book in the future.

The price for this creation does not depend on the book format or the page quantity, but rather on the fact that this composition will be exclusive to you. The price is 289€ (all included, free shipping).

Feel free to contact me if you have any question: contact@vincenthedan.com
